Dear Lutheran Home Family,

As we are well into the third year with COVID-19, The Lutheran Home at Kane's highest priority has been, and remains, the health and safety of the residents we serve and our dedicated staff who serve them. In accordance with the guidelines from the Centers for Disease Control and Prevention (CDC), the Centers for Medicare and Medicaid Services (CMS), and the PA Department of Health concerning COVID-19 and higher risk populations such as the elderly, we have been diligently enacting precautionary measures to help protect our residents and staff.

While visitors are generally permitted at all times, visitors should always be aware of the risk of spreading and contracting COVID-19 when visiting our facility, particularly during periods of outbreak. Visitors will be informed of these risks as well as the visitation guidelines via postings found at the front entrance of the facility.

In accordance with CMS guidelines, a weekly update on the status of COVID-19 at our facility will be published on our website found at www.lutheranhomekane.org. Updates will also be published within 24 hours of any new confirmed resident and/or staff cases. If a resident is COVID-19 positive, a personal phone call will be made by our nursing team immediately notifying their responsible party.

Please note the current status of COVID-19 in our facility as listed below.
